

Timber-look aluminium fencing and gate systems

Whatever your budget or environment, we can build low maintenance, aluminium fence panels or gates that will best suit you.

We use only the Knotwood range for our custom-built designs. A unique, Australian made and Australian guaranteed timber-look aluminium fencing system, which can be powder-coated in any colorbond colour available.

The Knotwood range is designed for simple installation, with no welding required. This lightweight, durable and textured timber-look aluminium fencing product creates the look and warmth of real timber without the hassle of wood maintenance.

- Fully Australian made and owned
